

View Site

Open the attached website by clicking the **View Site** button above and consider resizing or opening it in full screen for a better view. Then, drag and drop the roles from the left to the incidents on the right. If your choices are correct, claim your flag and complete the task! You can reset the website at any time by clicking the **Reset** button.

Answer the questions below

What flag did you claim after completing the final challenge?

THM{trysecureme_is_secured!}

✓ Correct Answer

Welcome to TrySecureMe!

Information, Refresh, Full Screen icons

Seven security tasks require an action, and you have to choose the right people to deal with every one of them.

Observe the roles on the top, drag the correct roles, and drop it on the corresponding scenario below.
