Claim your flag and use it in Task 3 / Question 3

Web Scanning of Corporate Resources	Low	🕒 In Progress	✓ True Positive	E.Fleming (L2)	^
Sensitive Document Share to External	Medium	🕒 In Progress	✓ True Positive	E.Fleming (L2)	^
Fast Beaconing to Untrusted Domain	High	✅ Closed	✗ False Positive	S.Todd (L1)	v

The rule detects repeated connections to a single domain with a static period like every 30 or 60 seconds. The connections may indicate a presence of C2 on the system, beaconsing to the malicious destination.

connectivity-check.ubuntu.com
